

# Collaboration for Conservation and Sustainable Utilization of Wildlife Resources in Ghana

8<sup>th</sup>-9<sup>th</sup> June, 2010, Seminar House of Graduate School of Science, Kyoto University  
Wildlife Research Center & Laboratory of Human Evolution Studies

\*\*\*\*\*

## 8<sup>th</sup> June

\*\*\*\*\*

13:00-13:15

**Gen'ichi IDANI**

Kyoto University

Opening Remark

13:15-13:50

**Boniface Baboreka KAYANG**

University of Ghana

Conservation of farm animal genetic resources in Ghana

13:50-14:25

**Augustine NAAZIE**

University of Ghana

Characterization of local chicken in Ghana

14:25-14:40

**Christopher ADENYO**

Kyoto University

Genetic analysis of cane rat in Ghana

14:40-14:55

Coffee Break

14:55-15:30

**Eiji INOUE, Yoshihiro NAKASHIMA**

Kyoto University

Monitoring diversity and abundance of the mammals using genetic analysis and camera trapping in Gabon

15:30-16:05

**Mari TERAKAWA**

Kyoto University

The impact of the local extinction of a Japanese macaque on seed dispersal effectiveness in the large-seeded tree *Myrica rubra*

16:05-16:20

**Hiroki SATO**

Kyoto University

Seed dispersal systems in Malagasy forests

16:20-16:35

Coffee Break

16:35-17:10

**Hideto FUKUSHI**

Gifu University

Research on viral infectious diseases and antibiotic resistant bacteria in wildlife and domestic animals of Zambia and Tanzania from the ecological point of view

17:10-17:25

**Sherif Ibrahim Ahmed RAMADAN**

Kyoto University

Analysis of genetic diversity of Egyptian native livestock based on microsatellite markers

17:25-17:40

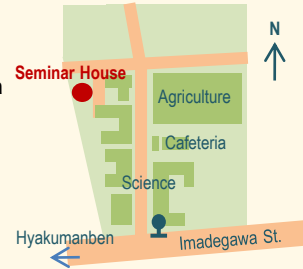

**Azusa HAYANO**

Kyoto University

Genetic diversity of stranded dolphins

18:00-20:00

Party

\*\*\*\*\*

## 9<sup>th</sup> June

\*\*\*\*\*

9:10- 9:45

**Kazunari USHIDA**

Kyoto Prefectural University

Microbiology on the wild animal -Experiments in chimpanzees and gorillas in the wild-

9:45-10:20

**Erasmus Henaku OWUSU**

University of Ghana

Conservation of vertebrate species in Ghana

10:20-10:35

**Hideaki ABE**

Kyoto University

DNA Barcoding for species identification of African birds

10:35-10:50

Coffee Break

10:50-11:25

**Ebenezer Oduro OWUSU**

University of Ghana

Entomology in Ghana

11:25-11:40

**Naoki MATSUURA**

Kyoto University

Crop raiding by wildlife around Moukalaba-Doudou National Park in Gabon

11:40-12:15

**Takanori OISHI**

Kyoto University

Collaborative research on human ecology in South East Cameroon: Toward longterm anthropological research (LTAR) and spontaneous development of forest population

12:15-12:30

**Miho MURAYAMA**

Kyoto University

Plan for the future collaboration of Ghana and Japan

Miho MURAYAMA (mmurayama@wrc.kyoto-u.ac.jp)
